

OTTERBOX

BUSINESS SOLUTIONS

PROTECTING DEVICES FROM DROPS AND BUMPS AS WELL AS STRICT HYGIENE REQUIREMENTS AT THE HEALTHCARE ORGANIZATION.

THE CHALLENGE:

Perth Children's Hospital is Western Australia's specialist pediatric hospital and trauma center, providing medical care to children and adolescents up to 16 years of age. The 298-bed hospital provides treatment for the most serious medical cases, as well as secondary services including inpatient, outpatient and day-stay care. Centers for Disease Control and Prevention recommend cleaning and disinfecting frequently touched surfaces to eliminate bacterial, dirt and viruses – this includes phones and tablets. We've subjected all of our products to rigorous testing* to ensure that regular sterilization does not impact their performance.

*Caviwipe, Purell, Rubbing Alcohol 70% (Curad)

THE SOLUTION:

The OtterBox Symmetry Series Case for Samsung GS 9 & 10 was selected to protect the devices from Damages from Drops and Bumps as well as Strict Hygiene Requirements at the Healthcare Organization.
